Healthcare, On-Demand. Zero Delays. Zero Excuses

Opening Note: A New Era Begins

April 2026 wasn't just a month of growth; it was a month of impact. In a landscape where healthcare has traditionally been confined to rigid hospital hours and slow-moving supply chains, Pulse ProCare Limited is rewriting the rules.

We believe that when a life depends on a medical device, "tomorrow" isn't an option. You need it now.

● The Pulse Edge: Redefining Accessibility

Instant response

One call puts an expert on the line
– no queues, no delays.

Zero-travel delivery

From ICU beds to pulse oximeters,
everything comes to your door.

Nationwide reach

Heart of Dhaka or a remote district
– our logistics never stop.

Experience center

Hands-on showroom for those who
value precision before committing.

● Product categories

Category	High-value solutions
Critical care	ICU beds, ventilators & oxygen concentrators
Diagnostics	Advanced lab equipment & precision monitoring
Mobility	Specialized wheelchairs & rehabilitation tools
Respiratory	CPAP/BiPAP & high-flow nebulizers
Home hospital	Full ICU-at-home setups for long-term recovery
Veterinary	Professional-grade supplies for animal care

Your solution is
already on its way.

Policy Advocacy: Charting the Path to Self-Reliance

To position Bangladesh as a healthcare technology leader, five key policy shifts are essential: recognizing medical devices as a priority sector to unlock investment, expanding financial incentives and low-interest financing, reducing import duties to support local assembly, strengthening public-private partnerships (PPP) in healthcare delivery, and developing certified biomedical talent to sustain long-term growth.

The Human Impact: Beyond the Balance Sheet

What does a strong medical equipment ecosystem mean for everyday people?

- **Clinical Precision:** Zero downtime ensures faster diagnosis and treatment
- **Cost Efficiency:** Lower hospital operating costs reduce patient expenses (currently ~70% out-of-pocket)
- **Restored Trust:** Reliable local care reduces dependence on medical tourism

Pulse ProCare Limited stands at that critical point—ensuring systems run, and lives are protected.
